Subject: Tutle Bay permits

APR 11 1 02 PM '06

RECEIVED

I am writing of my concern about the use of existing pemits at Turtle Bay's planned development. These 20 year old permits are rediculselly out of date with our current situation on the North Shore. The permits need to be revoked and new permits reissued after CAREFUL consideration and planning. Traffic and othe infastructure issues of our area need to be address, with input from current residents who will be signifacantly impacted. Do you have to sit in bottled-necked traffic to attend to everyday situations? I sit in 20-30 minutes of "turtle traffic"

to attend my grand children's sports events every Saturday. What about our Fire, Life guard and Paramdic services? Are we going to be able to provide new schools for the people working to please the tourists we invite to this area? Not to mention the irreparable damage to our precious enviroment. We live here because we choose to, a semi-rural way of life appeals to many. You need to listen to the voices of our community; those who will be significantly affected by this huge development plan.

We all need to look out for the future of this community and this island.

Thank You,
Paula Burgess
